

AROMA FRESH

Highlights

Perfectly prepared:

Integrated grinder with individually adjustable grind level (from fine to coarse)

High quality design

Stainless steel components on appliance and jug handle

Individual flavour

Settings for coffee strength (mild, medium, strong)

Easy to clean

Removable bean container (approx. 180 g) and removable grinder ring

3-in-1 limescale protection

The coffee machine is equipped with 3-in-1 limescale protection so that descaling doesn't present you with unsolvable problems - with the programmable water hardness level and the limescale indicator, you won't miss just the right time to descale. And when it's time, the automatic descaling programme does all the work. But you reap all the benefit because your coffee machine will thank you with a long life time and the best coffee flavour.

Coffee enjoyment

AROMAFRESH

FRESHLY GROUND FOR PERFECT INDULGENCE!
